

HR Real-Life Messy CV Dataset Example (For NLP Preprocessing Practice)

Subject

Application for DATA SCIENCE / ML Engineer Role

Candidate Name

Md Shakil Ahmed

Email

shakil.ahmed.ds@gmail.com | shakilahmed123@outlook.com

Phone

+8801712349876 , 01712-349876

Location

Dhaka, Bangladesh

Profile Summary

Data scientist with around 2+ years exp exp experience in Data analysis, machine learning ML ML, predictive modelling and AI solutions. Strong interest in Python, NLP, Computer vision vision, data visualization etc etc. Looking for opportunity in AI / ML / Data Science field field.

Technical Skills

Programming: Python, python3, PYTHON, R

Libraries: pandas, numpy, Numpy, scikit learn, sklearn, TensorFlow, keras

Data Tools: PowerBI, power bi, Tableau , Excel excel

Other Skills: Machine learning, Deep learning, NLP, Natural Language Processing

Work Experience

Data Analyst — ABC Analytics Ltd (Jan 2022 - Present)

Responsibilities:

- Cleaning raw dataset dataset dataset
- Building ML model for customer churn prediction
- Feature engineering and data preprocessing
- Dashboard building using PowerBI / Excel

Previous Experience

Intern – Data Science, XYZ Tech Solutions (Jun 2021 – Dec 2021)

Worked on:

- Sentiment analysis on product review review review
- Text classification using NLP

Projects

1. Fake News Detection using Machine Learning and NLP
2. Customer Segmentation using KMeans clustering clustering
3. Image classification using CNN cnn cnn

Github: github.com/shakilahmed-ds

Education

BSc in Computer Science & Engineering, National University

CGPA: 3.42 / 4.00

Certifications

Machine Learning by Andrew Ng (Coursera)

Data Science Professional Certificate

Additional Information

Languages: Bangla, English

Interest: AI research research research, Kaggle competition

Signature

Thanks & Regards

Md Shakil Ahmed
